

## **PROJECT NAME**

---

Urban Acre Restaurant

## **CURRENT CHALLENGE**

---

The lack of food and beverage options in our pre-security area has left a void for our guests looking for a fresh meal.

## **WHAT WE'RE DOING**

---

Urban Acre will offer a market place concept with fresh food options, hot meals, and 'We Proudly Serve' Starbucks products. The distinctly Saskatchewan vibes will highlight some of the important influences that the agriculture community in our back yard provides.

## **WHAT TO EXPECT DURING CONSTRUCTION**

---

In coordination with another project (see baggage conveyer rehabilitation), Skyxe will be offering a temporary food and beverage service located in the 'Quicker Stop' kiosk in our pre-security area.

## **ESTIMATED PROJECT COMPLETION DATE**

---

Urban Acre is scheduled to open in early 2019.

## **DID YOU KNOW...?**

---

- The new restaurant will be licensed, offering a small selection of beer and wine
- Urban Acre was designed by local firm, Kindrachuck Agrey Architecture
- This new space will include seating for 30 people.

CONCEPTUAL 3D PERSPECTIVE
